WITHOUT AN EQUAL: THAT'S THE RECORD OF

The Eddy Refrigerator

and others lies in the way they get what they want: most refrigerators are made at lowest cost and sold at market

prices to make money for the manufacturers.

The makers of the E D D Y consider no expense too great if it makes the E D D Y more valuable to the consumer as a saver of ice and food bills.

That has given the EDDY a Reputation, and a Reputation means SALES. Catch the Point?

The Federal Reporter for September

A London firm write their New York agents as follows, under date of August 29th:

The premian between old and new crop beet naving disappeared, a bet-ter trade demand should spring up, as it is an asknowledged fact that invisib; a supplies are everywhere very small. So far, however, confidence has not returned, and everybody is acting

on the hand to mouth principle.
"Prospects for next beet and cane crops remain good, and a material in crease of production over last year may be expected. In our opinion there is nothing starming in this fact, as, after this year's abstention on the part of the trade, a substantial increase of the world's consumption may be looked for, the more so as the present basis of prices is a moderate one for

all practical purposes."

One of our European correspondents writes as follows, under date of Aug-

"This market has again suffered this week by the further and probably final, liquidation of the August account, and all premium of old crop over new, has disappeared, so far as beet is concarned, bringing values in all positions up to the end of the year to about 9s. 6d. It is not unlikely that the market will make a stand at this unre-munerative level, but it is possible then, when the new crop it actually on the market, sales by second hand holders may, for a time, depress prices below the level of cost. The continued small figures of meltings in America. is a discouraging influence on the whole market, as there seems to be no proper explanation of it. The unexpectedly small consumption on your side, couple with the extremely large supplies from Sandwich Islands, to a large extent explain why the figures had come out at the end of the season so much less favorable than was ex-pected in the month of March. The beet crop news this week has not shown any new feature. The weather has been rather wet in most parts of the Continent, and in some places this may be a benefit, provided fine weath-

CONSUMPTION

consumption continues to carry away numbers of victims all the time.

Sir:-I have the honor to make the following report of deaths, which have occurred from contagious diseases during the fifteen days ended September 16th, 1908: Diphtheria, 1; plague, 9; tuberculosis, 6; typhold fever, 2.

RELIABLE REMEDY FOR THE

Whisky and Beer Habit

Very few men become drunkards because they like liquor. It is frequently the moderate drinker, who before he realizes his condition, has become a drunkard. The nervous system, having become accustomed to stimulants, is unable to do the same amount or quality of work without liquor, hence the victim drinks more and more. This is a state of disease and should be day and night. Why? Because they treated by Orrine. It destroys the desire for Ilquor, so that the drink is not which is well cooked and served at the
